*"There is only one thing that makes a dream impossible to achieve :
the fear of failure"*

from the desk of **CHAIRMAN**

It is my pleasure to congratulate you on enrolling yourself as a student in our group of institutions, which are well known for discipline, quality education and personality development.

We are convinced that "character is the crown and glory of life". We believe in quality education, progress through discipline, knowledge through devotion and satisfaction through services to the student community.

SATHISH .K
Chairman

ADWIKAI INSTITUTION OF NURSING have evolved a unique educational programme blending fantastic needs, development, skills that are instrumental in facing present date job requirements and also for the student professional benefit.

Our Students have excelled not only in academic activities by obtaining many university ranks, but also have proved their mettle by taking part in curricular, co-curricular and extra curricular activities.

We are dedicated to meet the challenges of the new millennium, in the field of medical and technical higher education so as to make our country a highly industrialized and healthy modern nation.

"Education's purpose is to replace an empty mind with an open one"

from the desk of **VICE CHAIRMAN**

SOWMYA .P
Vice Chairman

Education is presently undergoing a welcome seismic change. In tune with the changing times, Adwika Institute of Nursing, aim to help students excel in the various fields of study of their choice.

In the field of education, Adwika Institute of Nursing is looking at engaging the students in overall development processes. We have designed co-curricular and extra curricular activities for the students to be involved in actively.

The dedicated staff is devoted to the task of incorporating teaching methods with modern equipments and electronic gadgets for the benefit of the students. These proactive pedagogical technologies have resulted in higher performance in examinations and academic activities.

The main focus of our institution is to empower students with sound knowledge, wisdom, experience and training both at the academic level and in the highly competitive, volatile industrial market. The infrastructure facilities and state-of-the-art equipment's contribute to an enjoyable and an easy learning experience.

Adequate care is taken to give every student an enjoyable, well-rounded and secure educational environment. Help is always at hand for the students.

We wish the best for our student and along with the staff and professor of Adwika Institute of Nursing, aim at providing holistic development for its students.

“Ordinary people can achieve the extra-Ordinary”

from the desk of **DIRECTOR**

Dear Students,

I am indeed very happy to note your interest of joining our college, as its Director, I offer you a very cordial welcome, I must say that your critical wisdom is reflected in choosing our college for your further studies. This is mainly because this college has established its academic credential.

You will be one of very few fortunate students, if you could get admission to any of the courses which are being conducted in this college. You must make the best use of this opportunity.

You will be happy to know that the track records of achievements of our alumni is indeed commendable. Scores of our students have proven their mettle & have established themselves successfully in different spheres of life. We have no doubt that in due course, you will be one of these selected ones. I am aware of what you are looking to have in future career & the dream which you are cherishing in your minds. Let me assure you that we help you to realize them. So let us work together & make a fine career for yourself.

I wish you a very promising & fruitful career as the students of this college.

Messages

"The root of education is bitter, but the fruit is sweet"

from the desk of **PRINCIPAL**

Nursing is an art: and if it is to be made an art, it requires an exclusive devotion as hard a preparation, as any painter's or sculptor's work; for what is having to do with dead canvas or dead marble, compared with having to do with the living body, the temple of God's spirit? It is one of the Fine Arts: I had almost said, the finest of Fine Arts. - Florence Nightingale

A nurse needs to compete in today's health care world of scientific excellence; advancement and precision. We believe that a graduate nurse of this college will not only take up leadership role at health care setting but will also get involved in ongoing research activities to update his / her knowledge and practice.

At Adwika Institute of Nursing, the students will find rich academic and clinical ambience to facilitate their learning which in return will stimulate the fulfillment of their academic and future goals. Here the students receive well-rounded pedagogy along with realistic and empirical training in the state of art laboratories and comprehensive, coordinated first-contact, and longitudinal patient care environment, along with rich community health nursing exposure which will help them to build their own professional personality as competent and confident nurses. The students will enjoy every bit of their learning experience through curricular, co-curricular and extracurricular activities especially tailored for them. They will have access to unparalleled Adwika Educational Trust Resources that includes rich clinical settings, central libraries, in campus hostels, mentoring and counselling services, transport facilities, free medical services and sports & cultural facilities.

At Adwika Institute of nursing, we aim to develop scientific vigor in the students' right from their first contact with profession as a first year students. The motto of the College is "Academic Excellence with Competent Nursing Care" I am sure the students educated at Adwika Institute of nursing will be competent, self-reliant, courteous and confident human beings in life and will establish themselves as leaders in the field of nursing practice.

I welcome all the new students and wish them success through their academic journey out of our college as successful nursing professional.

ADWIKI INSTITUTE OF PARAMEDICAL SCIENCES

DIPLOMA IN MEDICAL LABORATORY TECHNOLOGY

Medical laboratory technology is an integral part of the medical care system. Clinical laboratory testing is crucial to detecting and diagnosing disease. Medical laboratory personnel work behind the scenes, running the tests to help doctors diagnose illnesses and make decisions about patient treatments. These technicians examine and analyse body fluids, tissues and cells. They look for bacteria, parasites and other microorganisms. People in this field use automated equipment and sophisticated instruments capable of performing a number of tests simultaneously.

DIPLOMA IN DIALYSIS TECHNOLOGY

This is a highly specialized field in taking care of patients who have compromised kidney function. These professionals are not only trained to operate sophisticated machines which act as kidneys in removing waste and excess fluids from the body but also in maintaining, repairing of these machines. They are also trained in patient education, counselling of patient and relatives about dietary habits, adherence to prescribed dialysis.

DIPLOMA IN OPHTHALMOLOGY TECHNOLOGY

These professionals are trained in providing comprehensive eye & vision care which includes refraction & dispensing, detection/diagnosing, diagnosing and managing ocular problems and rehabilitation of conditions of the visual system. They are trained to determine the refractive errors and suggest appropriate correction. They deal with eye testing, diagnose visual problems, optometrist counselling, color blindness, hereditary vision defects, prescribing spectacles and suggest eye exercise.

DIPLOMA IN OPERATION THEATER & ANESTHESIA TECHNOLOGY

An operation technician is a person who looks after all the works and management of the operation theater which include managing patients in & out of operation theater, looking after all the surgical instruments, their sterilization, arrangement of the operation theater table, dressing table, instruments table, anesthesia table and management of OT staffs. Also responsible for maintenance of drugs inventory, anesthetic gases, linen and their sterilizations.

DIPLOMA IN IMAGING TECHNOLOGY

X-ray technology has made tremendous advance in last two decades. The new diagnostic methods like ultrasound, CT, NMR, etc, have revolutionized and accurate practice to arrive at correct and accurate diagnosis. WHO have already envisaged one X-RAY unit to be attached to every primary health centre thus creating the need for trained paramedical personnel in X-RAY technology. On the horizon of cancer treatment, radiotherapy plays a crucial role. All modern cancer treatment centres are equipped with radiotherapy units which have an essential requirement of trained paramedical personnel in radiotherapy.

DIPLOMA IN HEALTH INSPECTOR

This Course, Diploma in Health Inspector, trains students about methods and practices involved in maintaining top notch hygiene conditions. The students are given the knowledge about developing competence in health and family welfare, fulfilling the need for health care professionals with regards to government policies and developing expertise in public health. This is made possible by including subjects like community health, role of environment in health, nutrition and health care. The curriculum of this course is designed in such a way that it lays emphasis on both theoretical and practical aspects of health care and sanitation.

CLINICAL TRAINING

- **B.G.S. GIMS Medical Hospital**
- **SPARSH Super Speciality Hospital**
- **K.C. General Hospital**

Healthcare today has reached a complexity that challenges all providers,

- Leadership and frontline healthcare workers.
- To meet the challenge of Healthcare our college has tie-ups with well advanced high tech Multispeciality hospitals. As per the University requirement.
- Our students are posted in all areas with the goal of providing the highest level of care to each patient served.
- We provide practice training in the areas of medicine, surgery, psychiatry, pediatrics, obstetrics and gynecology and community rehabilitation.

B.G.S. GIMS Medical Hospital

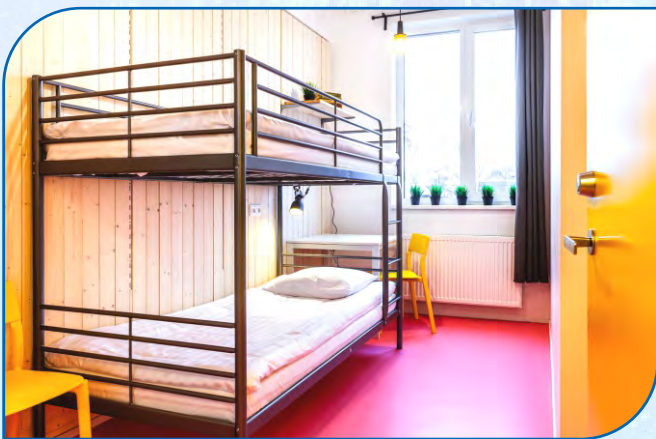

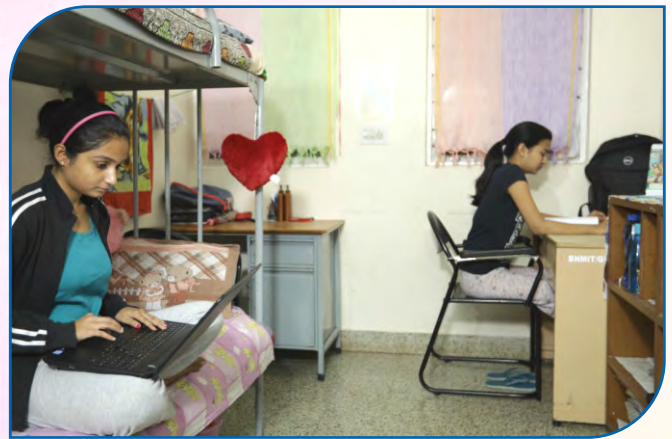

SPARSH Super Speciality Hospital

K.C. General Hospital

HOSTEL FACILITY

- Ranging free environment.
 - Hostel life plays an important role in shaping one's individuality.
 - A hostel inmate imbibes lot of responsibility because of hostel environment and it also promotes independent thinking.
 - Separate Hostels for Boys & Girls.
 - With necessary and efficient security, ensure the safe stay for outstation Students.
 - Internet facilities, residing room equipped with newspapers and magazines.
 - Breakfast, Lunch and Dinner served to the students cater both North and South Indian delicacies.
- The kitchen is a hi-tech one which is sterilized and attached to the mess, and the food that supplied is maintained in hygienic condition.

Faculty :

The Faculty of Adwika Group of Institution offers a range of undergraduate, postgraduate and doctorate persons research courses in a dynamic student-centered learning environment. It has established collaborative research programs with various National and International institutions. ADWIKA GROUP OF INSTITUTIONS appointed PhD & M.Sc faculties from various states for Teaching UG Students .

Laboratories :

We have dedicated and well equipped labs in all the disciplines taught at ADWIKA GROUP OF INSTITUTIONS also consist of various well equipped high-tech laboratories like the nutrition lab, nursing arts lab, maternal and child health lab and the community lab,these labs have specialized simulation models such as the CPR manikin, simulation arm for injection demonstration and simulation model for mechanism of labour and physiotherapy lab.

About ADWIKA INSTITUTE OF NURSING

The Institution situated near to Bangalore university, on the permission accorded by the Indian Nursing Council, New Delhi & Karnataka State Nursing Council and the college Affiliated to Rajiv Gandhi University of Health & Sciences, Karnataka. Offered with UG Degree course in B.Sc & GNM Nursing Courses. Our Nursing College is attached with 800 bedded Teaching Hospital of BGS GIMS Medical hospital & 650 bedded Sparsh Hospital for Clinical practices

Our college was established with the goal of rendering quality education and training to the people of India and the world. The Academy has since its inception built a formidable name in the fields of nursing. With experienced faculty members, the institution is a door to all those who aspire for a bright future in the fields of nursing. Nursing industry is booming and there's a definite demand for more and more nurses around the world. Many Indians are waking up to the fact that there's a bright future waiting to be explored.

Location

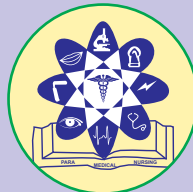

OVERVIEW

ADWIKA GROUP OF INSTITUTIONS started in 2019 at Bangalore. It is one of the constituent units of the Adwika Educational Trust® Bangalore.

This college started with the objectives of training the students to become competent nurses for first level positions in nursing, to provide quality care in hospitals, community and thereby contributing to health care of our nation. The college has the permission from Government of Karnataka, Rajiv Gandhi University of Health Sciences, Karnataka Nursing Council and Indian Nursing council New Delhi.

The college is equipped with Fundamentals of Nursing Lab, Pediatric Lab, Midwifery Lab, Nutrition Lab, Computer Lab, Community health Lab, Anatomy Lab, Counselling Room, A.V. aids Lab & a Departmental Library. Which has a very vast collection of reference books and journals of both Indian and Foreign, Online Journals are available through Helinet and audio-video material also available to the students. Hostel facilities with modern amenities like South Indian, North Indian and Continental foods are available to our students in the campus. The atmosphere in the college is very congenial for professional growth.

"Every nurse was drawn to nursing because of a desire to care to serve or to help"

PHILOSOPHY OF INSTITUTE OF NURSING

Philosophy of Human Life

Each person is a unique being worthy of respect, with a personal history, intrinsic value, and a right to influence her/his destiny. Humans are integrated beings consisting of biological, psycho social, cognitive, and spiritual aspects. Each individual is a part of the culture of her/his family, other groups, communities, and the larger society. Human beings share certain common characteristics, are interdependent, and have a need for social interaction.

Philosophy of Nursing

Nursing is a systematic, deliberate caring process with individuals, families, and communities in promoting health, reducing risk, preventing disease, managing illness, and supporting clients in all phases of living and dying. This process is

based on a unique combination of knowledge, skills, and attitudes that incorporate the professional values of caring, respect, and a commitment to social justice. Inherent in this process are support for the dignity of the individual, advocacy for one's right to self-determine care, and recognition of the uniqueness of each person as an individual, a family member, and a member of society. Nursing is practiced independently and collaboratively in the context of organizations and communities.

Philosophy of Education

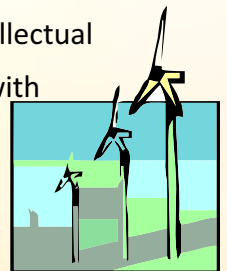

Education is a life-long process, encompassing intellectual and life experiences that affect personal development. This process is best achieved in a milieu that recognizes the worth of the individual and fosters mutual inquiry. University education promotes intellectual development, assists the individual in finding a way of life that is consistent with

fulfillment of one's own needs, and enhances one's ability to serve society. It provides individuals with a broad knowledge base and skills to think critically, communicate

effectively, develop self-understanding, and adapt to adjust with environment change. Professional education builds on this general educational base and provides individuals with a specialized body of knowledge and expertise.

Aims & Objectives

Facilitate high quality practical knowledge in all branches of nursing with superior demonstration

The institute prepare students for the "A" Grade certificate examination in "Nursing and Midwifery conducted by the Karnataka State Diploma in Nursing Examination Board, Bangalore"

To develop skill in reorganizing and interpreting intelligently the physical, mental and emotional manifestations of illness and be able to plan individual nursing care to patients based on their unique needs.

To help the students to work in mutual co-operation with medical and paramedical personnel and participate in various programmes for prevention of diseases and the promotion of health in the community.

To help students to integrate the principles of mental hygiene and ethical and moral code involved in the practice of nursing

To stimulate a desire for further study in the advanced fields of the nursing profession.

To develop vast and wide kind feeling to help the sick and poor people irrespective of caste, creed and colour

VISION

Knowledge must continuously be renewed by ceaseless effort. If it is not, it will be lost. It resembles a statue of marble which stands in desert and continuously threatened with burial by the shifting sand. The hands of service must ever be at work, in order that the marble continue to lastingly shine in the sun. To these serving hands mine shall also belong.

"To create a world that works for everyone with no one and nothing left out, bringing about a transformation in the quality education."

Facility | Laboratory

1. Nursing Foundation – Laboratory

Nursing foundation course is designed to help the students to develop and understanding the philosophy, objective, theories and process of nursing in various clinical settings. It is aimed at helping the students to acquire knowledge, understanding and develop skill in techniques of nursing procedures and practice them in clinical setting. For which we have well equipped lab with 10 beds, mannequins for performing and practice of various nursing procedures including CPR.

2. Medical Surgical Nursing – Lab

Medical Surgical Nursing course is designed to help the students to acquire knowledge and develop proficiency in caring for patients with medical and surgical disorders in varieties of hospitals and health care settings and also at home. The various skills related to medical and surgical conditions, performing related nursing procedures will be taught as first hand experience in the lab combined with nursing foundation lab.

3. Child Health Nursing – Lab

Child health nursing course is designed to help the students to develop an understanding of the modern approach to child care, identification, prevention and nursing management of common health problems of new-born and children. This lab provides solid Foundation for Pediatric Nursing i.e. first-hand experience to handling neonates and children with the help of simulated model (mannequins) and also performing related nursing procedures, before going to actual clinical settings.

4. Midwifery And Obstetrical Nursing – Lab

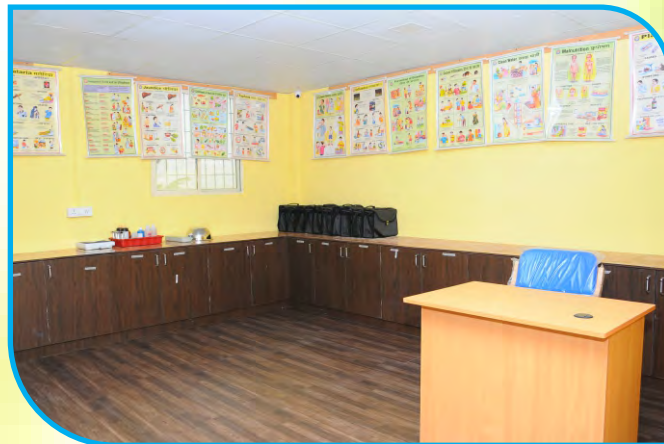

This course is designed for students to appreciate the concepts and principles of midwifery and obstetrical nursing. It helps students to acquire knowledge and skills in rendering nursing service to normal and high risk pregnant women for antenatal, intranatal and postnatal periods in hospital and community settings. It also helps to develop skills in managing normal and high risk neonates and participate in family welfare programmes. This laboratory provide first-hand experience in assessment of antenatal case, intranatal case, post natal case, neonatal assessment and demonstration of nursing care and handling problems accordingly.

Facility | Laboratory

5. Community Health Nursing

This course is designed for the students to develop an understanding of the recent modern approach to appreciate the principles of promotion and maintenance of health and also identification, prevention and management of common health problems in collaboration with community health team and members of the family and also with community leader, This laboratory, equipped with community bags, for learning bag techniques, and various audio-visual aids related to community health concern

6. Nutrition Lab

The course is designed to help the students to acquire knowledge of nutrition for maintenance of optimum health of different stages of life and its application to nursing. This is a separate lab equipped with various models, posters, flash cards, flip charts for nutrition education and also various vessels and accessories to prepare different recipe according to different kinds of food for different illness.

7. Computer Lab

This course designed for students to develop basic understanding of the use of computers and its applications in nursing. This computer lab attached to the library and has facilities to access various journals through helinet.

Facility | Library

The Library is spread over a floor space of about 1200 sq. mtrs.

The Library stocks more than 2000 books of various subjects in medical and allied health sciences. Reputed journals, both Indian and foreign are available in departmental libraries. The total number of books in the central and departmental library runs over 2000 titles.

Computerized catalogues of the library holdings as well as a card index are available for the students. Further, there is provision of modern bar code and Online Public Access Catalogue (OPAC) technology to facilitate for user friendly, quick and easy search facility for the students and faculty.

Students are encouraged to avail other facilities like e-mail, internet, CD-ROM browsing & photocopying. Ample and separate reading space has been provided to both the students and faculty along with comfortable seating arrangements. Besides the Central Library all the departments, pre-clinical and clinical have been provided with departmental libraries which are well stocked with standard text books and other works of reference.

To supplement the knowledge acquisition process, ADWIKAL GROUP OF INSTITUTIONS has a large library independent of the departmental libraries. This facility is well-stocked with books spanning the gamut of healthcare subjects. The library also subscribes to a range of specialized journals to help students keep pace with the advances in medicine. The library also has a digital section that stores medical information in the form of CDs / DVDs and offers access to online medical literature through the HELINET. Open from 9 am to 9 pm on all working days, the library offers students quiet reading rooms and facilities for photo copying of material.

About Nursing

The word

Nursing came from the Latin word "Nutritius" which means to cherish, to protect, to support, to sustain, to train, to educate and to supply with things essential for growth. Ms Florence Nightingale (1820-1910) made emphasis on the preparation of individual who can care for sick and promote health of individual and society.

According to American Nurses Association "Nursing practice is a direct service, goal directed and adaptable to the needs of the individual the family of community during health & illness."

Nursing is the profession which demands dedication, patience, devotion, professional commitment, responsibility, orderliness in working, punctuality, continuous motivation, high level of initiative and self discipline.

The professional nurse plays role as a client advocate, an educator, a team leader and accountable for providing quality care for those who are under his /her care.

Objective of NURSING

- ♦ To apply knowledge from physical, biological and behavioral sciences, medicine including alternative systems and nursing in providing nursing care to individuals, families and communities.
- ♦ To provide nursing care based on steps of nursing process in collaboration with the individuals and groups.
- ♦ To demonstrate awareness, interest and contribute towards advancement of self and of the profession.
- ♦ To demonstrate competency in techniques of nursing based on concepts & principles from selected areas of nursing, physical, biological & behavioural sciences.
- ♦ To practice ethical values in their personal & professional life.
- ♦ To provide preventive, promotive, restorative & emergency health care to individuals & community as regent.
- ♦ To guide / train birth attendants, Anganwadi workers (AWWs) other health activities & volunteers.
- ♦ Ability to function effectively as educator and administrator.
- ♦ Ability to interpret health related research and develop initial competencies in conducting research.
- ♦ To gain leadership qualities for the advancement of the practice of professional nursing.
